

HOW THEY BUILD ROADS  
DOWN IN GEORGIA

A Newberry Boy Writes Interesting Letter Telling of the Good Roads Down in Georgia.

The editor has received a letter from his young cousin, Hubert Aull, who is teaching down in Statesboro, Ga., and we are taking the liberty of printing the greater part of it because it deals with a subject which should be of great interest to the people of this county. This thing of building some worth while roads is a very important matter and the people should begin to realize that we have reached that point in our civilization when we must do something to improve the roads. The people are ready and are interested but the question of just how to go about it is the big question. We must make provision for the maintenance of the roads when we build them or the money will be practically wasted that we spend.

We are glad to know that Hubert is getting along all right. He says he is well and happy and he should desire nothing greater than health and happiness.

His reference to Clemson should be understood and the understanding is that he is a graduate of Clemson and we are glad to see him stand by and be interested in his alma mater. We do love to see loyalty to school and to home and to family. The boy who isn't will not amount to a great deal in the great battle of life.

Statesboro, Ga., April 21, 1920.  
My dear Cousin Elbert:

I do not intend to write you a very long letter for I know your time is limited during this busy season and certainly I have my hands full.

I have read with the greatest of interest your articles on road building and maintenance, your sane advice about the recent trouble at Clemson, and, in fact, everything in the old Herald and News including the announcements for political offices and advertisements, and I desire to congratulate you upon your paper. I have heard, even down here, some very complimentary remarks about Newberry; ran across a traveling man recently who knows you and who spoke very highly of the Newberry Herald and News. (I was glad to tell him that you were a relative of mine.)

The Herald and News comes to me regularly and without delay. I usually get the news from home first hand and I tell you it reads good to me. I wish some of the folks near Pomaria would send in the notes of interest from that town. You know that's my "Briar Patch" and I hate not to read the Pomaria news in my county paper. Can't you arouse a little "Pep" down in that section?

I began this letter to tell you something of the work they are doing on the roads here. This county, Bulloch, has purchased a 10-ton Holt tractor and they are scraping the roads all over the county. They use two road scrapers on the hilly and thus save about 50 per cent of the time otherwise required. Most of the roads here are sandy but clay has been intermixed and now we have very good roads. I am located in Statesboro, a town with about the same population as Newberry, but with wider streets, and for ten miles in any direction, almost, one can clip along at a lively rate. With your Cleveland Six, I doubt not that one could make fifty or sixty easy. I have travelled considerably over eight of the counties about here, and really the roads are better in other sections. From here to Augusta, eighty-five miles, I have made the trip there and back in a day without any trouble whatever. I rode over to the Southern Exposition held in that city before Christmas, spent a very pleasant and profitable day—as long as I cared to stay, and could have eaten supper in Statesboro had we not stopped over in a small town a few miles distant. From here to Savannah the trip is reckoned as being fifty miles. We thought nothing of riding down to hear the great Italian prima-donna, Galli-Curci, and returning the same night, to get a good rest before morning. The roads leading out from Savannah, as you know, are made mostly of oyster shell and they are real roads. Now they are paving the main highways leading out of the city.

I am sorry to read of Clemson being beaten by Newberry, but I had rather Newberry beat us than any other college I can think of. We seem to have a sort of Connie Mack rep over there—that of losing the first five or six games every season. Base ball is a great game and we have had some of the best contests here I have ever seen. This school had played the last four games ending in scores like this: 1-0; 3-2; 2-2; and 1-0. The first two scores represent games with a District School beating Mercer university, so you see we have a rather good team.

I am still teaching school in Georgia. I like the position all right and am proud to say that I have been re-elected for another year. I have not accepted as yet, however. I have charge of the Animal Husbandry Division of the First District Agricultural School and teach the sophomore and senior boys in agriculture. We have purchased this year some of the best Hampshire and Duroc-Jersey blood in the States and have some of the choicest animals of these two breeds of hogs. We also own a Jersey bull from record stock, and expect to purchase some other pure blood in cattle. Every person will sooner or later realize the value of pure bred stock.

My regards to all the folks, especially to your good wife and "American" boys. I am well and happy—what more can I ask?  
Sincerely your cousin,  
Hubert Aull.

Mr. Geo. B. Derrick was elected as superintendent of Holy Trinity Sunday school. Mr. W. B. Shealy having served for a number of years resigned. We regret to have Mr. Shealy leave us as superintendent but glad Mr. Derrick has accepted and is doing such good work.

Louisa Fredrika Augusta Zobel.

One by one the old landmarks are passing. The number of our days is three score years and if by reason of strength they be three score and ten, and yet to some it is given to reach the four score mark. But it has seemed in the very recent past more of the old ones are passing out to the great beyond than has been the case in the same time in a long while. But there is no season nor time nor age for the great reaper. All seasons are his. The young, the middle aged, the old, and it has been thus since the dawn of creation. We do not understand why it is and how it is. We do not know when the silver cord will be loosed nor the golden bowl broken. It is written: He that observeth the wind shall not sow; and he that regardeth the clouds shall not reap. It is for mortal man to follow the path of duty and to serve his day and generation.

Away back in the early part of the last half of the last century there was a happy little village at Helena. It was a busy place and many happy and contented people made up the population. Along about this time there came from across the sea a bright and blushing young maiden, Louisa Rudolph, the daughter of Christian Rudolph. Soon thereafter there came the sweetheart of her childhood William Zobel. On the 18th day of May, 1858, Louisa Fredrika Augusta Rudolph became the bride of William Zobel and for many years they lived happily together in this little village of Helena and saw their children grow to honest manhood and virtuous womanhood.

It does not seem near so long to those of us who knew William Zobel, but it has been 28 years since he passed to the great beyond. Many of the older people will remember him as a clerk in the office of county treasurer where he worked for several years.

Mrs. Louisa Zobel died on Wednesday morning at 10:15 o'clock after an illness extending over two years and more. She was born in Heilbronn Kingdom of Wurtemberg, Germany, July 23, 1834. The greater part of her long life was spent at her home in the town of Helena.

She is survived by one sister, Mrs. Annie Fisher of Philadelphia. Six children, 25 grandchildren and 4 great grandchildren. Her children are Charles J. Zobel of Helena; Fred W. and William A. Zobel of Charleston, Mrs. Caroline Burn of Helena and Mrs. Otto Klettner of Newberry and Mrs. W. S. Melton of Helena.

The funeral was held Thursday af-

ternoon from the residence in Helena and burial in the village graveyard beside the remains of her husband, conducted by Rev. Edward Fuldewider and Dr. A. J. Bowers.

Mrs. Zobel was a member of the Lutheran church and a kind and good wife and devoted mother and was permitted an earthly pilgrimage of more than four score years way beyond that given unto most men.

Among the relatives from a distance attending the burial were the families of Messrs. Fred and Will Zobel of Charleston, Mr. and Mrs. Pat Zobel of Columbia, Miss Louise Melton of Winthrop college, and Mr. and Mrs. Thomas Zobel of Columbia.

The following were the active pallbearers: Messrs. H. C. Holloway, Arthur Kibler, G. B. Cromer, Jno. C. Goggans, Dr. W. G. Houseal, Dr. J. M. Kibler.

Honorary: R. C. Perry, P. C. Gaillard, D. L. Beachman, P. A. Poag, W. V. Bledsoe, F. G. Spearman.

Richard Greener Julien.

Miss Carrie Greener and Mr. R. H. Greener received a telegram on Thursday announcing the sudden death of their nephew Mr. Richard Greener Julien on board the battleship Oklahoma on Wednesday. No particulars were given except that the ship was enroute to Washington from somewhere down around the Canal Zone.

Young Julien was but 19 years of age and volunteered in the navy some time ago. He was a bright boy and seemed devoted to the navy. It will be remembered that it has not been so long ago when he was home on a brief furlough and we remember very distinctly how very happy he seemed, thus showing that he was delighted with the profession he had entered.

He was the son of the late B. E. Julien of Helena and is survived by one brother Carl Julien who has but recently moved to Newberry.

Arrangements will be made to have the body sent to Newberry for burial.

The sympathy of many friends will go out to the sorrowing relatives in the sudden taking off this young life.

REGISTRATION FOR TOWN  
ELECTION VERY SMALL

The books of registration for the city for the special elections to be held on Friday, May 7th, 1920, were closed by the supervisor of registration, Mr. J. W. Chapman, according to law at 5 o'clock p. m., on the 26th instant. Several voters registered on the closing day. The registration is one of the largest ever had in the town and yet it is very small. The total number of voters registering were 220 including one colored voter.

The mayor and city clerk repeatedly called the attention of the people to the matter of registration but fully three-fourths of the white men who could have registered failed to do so. Much of the failure to register was due to the fact that so many voters failed to get county registration certificates or could not find those certificates. Under the law the supervisor of the town registration could not issue a registration certificate unless the voter could show a county certificate and that he had paid his taxes, both county and town.

The registration by wards was as follows: Ward 1, 43; Ward 2, 66; Ward 3, 60; Ward 4, 25; Ward 5, 26. There may be other elections after awhile and the people who are entitled to register should do so. The county books of registration will be open again on May 3rd, 1920, from 9 a. m., to 5 p. m. It will be too late to register on that day in order to vote in the special elections of May 7th, but those who have not county certificates should get them for future use.

WANTS TO KNOW WHERE  
HE CAN BUY EGGS

"Eggs are down to 15 cents—not in Newberry, but in Delaware."

Wilmington, Del., April 25, 1920.

Editor The Herald and News:  
Dear Sir—To show you that I scan The Herald and News from the first to the last page, advertisements and all, the little clipping at the top of this sheet will help to testify. This was clipped from the paper dated 23rd instant.

I may mistake the meaning of the quotation above but if it is meant that eggs are 15 cents per dozen in Delaware I would be obliged if you will tell me just whereabouts in Delaware I can procure them at that figure. I eat three boiled eggs for my breakfast every morning, except Sunday morning, but I have never been able to obtain good eggs at 15 cents per dozen. More like 15 cents apiece all winter.

I am anxiously awaiting the next issue of The Herald and News.

Very respectfully,  
Y. I. Hutchinson.

511 Jefferson Street.

The Herald and News seems to be read "all over creation." Some time ago a young man of Newberry said he didn't know the paper was read so "universally" throughout the county, until they had "something on him." Now comes a request from Wilmington, Del., to know just in what place or places in that state eggs are selling at 15 cents the dozen, as stated in a recent issue of this paper. Well, the little statement was copied from an exchange in passing, and that's all that is known about it.

SUNDAY, MAY 9TH  
IS MOTHER'S DAY

Next Sunday, May 9th, is Mother's Day. Not for so many years has this day been set aside as Mother's Day, but in recent years the observance of the 2nd Sunday in May to honor our mothers has grown in favor and each year sees it observed by a greater number.

Not all of us are so fortunate to have a mother to do honor to on this

day and to those who have none there are other mothers to remember. On Mother's Day it has been the custom to send white carnations to our mothers and to those who find this impossible we suggest that they write a letter or send a Mother's Day card which can be bought in many sizes and with an appropriate verse.

To many of our mothers this will be the last Mother's Day that they will live to see and let us all remember them on this day set apart for them with flowers, letters or cards. They will appreciate being remembered.

## Still Another Still.

Deputies McCauley and Taylor found another still near Broad river on Mrs. Graham's place Wednesday, and seized a small quantity of whiskey. They destroyed the still and arrested Mark Holland, a young white man, and Press Edwards, a negro, who were at the still. Holland had a .45 calibre Colt's revolver and made an attempt to draw, but was covered by the deputies and submitted to arrest. J. H. Holland, father of Mark, made his escape. The Hollands also had an automatic shotgun. It is just as The Herald and News has said. To stamp out the evil of desperate men in desperate times, in the traffic that makes dealers rich at the cost of desperate craving, it will take bloodshed; and there will be much of it between determined men.

## 9 to 9.

The American legion and the Newberry college baseball teams broke even, 9 to 9, in a practice game at the college park Wednesday afternoon. Elmer Long, of Clemson fame, held the Indians to seven hits, while the veterans found Early for ten safeties.

Next Monday afternoon, May 3, at 4 o'clock, the two teams will cross bats again at the same place, and

## City Borrows Money.

At the meeting of the city council on Tuesday night the mayor and city clerk and treasurer were authorized and directed to borrow the sum of \$10,000 from the National Bank of Newberry on the note of the town, payable December 15th, 1920, at an interest of five per cent. The money is to be used for the current expenses of the town during the present year and will be repaid out of the taxes collected in the fall. The
